

## National Weather Service Heat Index

### Temperature (°F)

| Relative Humidity (%) | 80 | 82 | 84  | 86  | 88  | 90  | 92  | 94  | 96  | 98  | 100 | 102 | 104 | 106 | 108 | 110 |
|-----------------------|----|----|-----|-----|-----|-----|-----|-----|-----|-----|-----|-----|-----|-----|-----|-----|
| 40                    | 80 | 81 | 83  | 85  | 88  | 91  | 94  | 97  | 101 | 105 | 109 | 114 | 119 | 124 | 130 | 136 |
| 45                    | 80 | 82 | 84  | 87  | 89  | 93  | 96  | 100 | 104 | 109 | 114 | 119 | 124 | 130 | 137 |     |
| 50                    | 81 | 83 | 85  | 88  | 91  | 95  | 99  | 103 | 108 | 113 | 118 | 124 | 131 | 137 |     |     |
| 55                    | 81 | 84 | 86  | 89  | 93  | 97  | 101 | 106 | 112 | 117 | 124 | 130 | 137 |     |     |     |
| 60                    | 82 | 84 | 88  | 91  | 95  | 100 | 105 | 110 | 116 | 123 | 129 | 137 |     |     |     |     |
| 65                    | 82 | 85 | 89  | 93  | 98  | 103 | 108 | 114 | 121 | 128 | 136 |     |     |     |     |     |
| 70                    | 83 | 86 | 90  | 95  | 100 | 105 | 112 | 119 | 126 | 134 |     |     |     |     |     |     |
| 75                    | 84 | 88 | 92  | 97  | 103 | 109 | 116 | 124 | 132 |     |     |     |     |     |     |     |
| 80                    | 84 | 89 | 94  | 100 | 106 | 113 | 121 | 129 |     |     |     |     |     |     |     |     |
| 85                    | 85 | 90 | 96  | 102 | 110 | 117 | 126 | 135 |     |     |     |     |     |     |     |     |
| 90                    | 86 | 91 | 98  | 105 | 113 | 122 | 131 |     |     |     |     |     |     |     |     |     |
| 95                    | 86 | 93 | 100 | 108 | 117 | 127 |     |     |     |     |     |     |     |     |     |     |
| 100                   | 87 | 95 | 103 | 112 | 121 | 132 |     |     |     |     |     |     |     |     |     |     |

Fatigue Possible with prolonged exposure and/or physical activity

Heat Syncope, Heat Cramps, or Heat Exhaustion Possible

Heat Syncope, Heat Cramps, or Heat Exhaustion Likely and Heat Stroke Possible

Heat Stroke Highly Likely with continued exposure

## Environmental and Personal Risk Factors can Increase the Risk of Heat Illness

### Environmental

☐ No Breeze

☐ Hot Wind

☐ Radiant Heat

☐ Conductive Heat

### Personal

☐ Age

☐ Health

☐ Medications

☐ Drug/Alcohol

### Other Factors

☐ Amount of physical exertion

☐ How well the person is acclimated

☐ Clothing and PPE that restricts the body to evaporate sweat

☐ How well the body is hydrated

## Heat Illness Prevention

### When temperature is $\geq 80^{\circ}\text{F}$

1. Drink at least 4 cups (1 qt) of water per hour
2. Rest in shade or air conditioned location for at least 10 minutes every two hours
3. Monitor for signs of heat illness

### When temperature is $\geq 95^{\circ}\text{F}$ or Heat Wave\*

1. Supervisor reviews Heat Illness Prevention Plan with Associate
2. Field Service Associate checks in with supervisor at least once every hour
3. Everything shown to the left for  $\geq 80^{\circ}\text{F}$

\* A heat wave is any day in which the predicted high temperature will be at least  $80^{\circ}\text{F}$  and at least 10 degrees higher than the average high daily temperature in the prior 5 days. When traveling to remote sites, consider the temperature from where the associate has been for the past 5 days and the weather at their destination.

## Heat Illness Signs, Symptoms, and First Aid

NOTE: No Yaskawa associate shall perform work or any hazardous activities including working with live electrical power, driving, or operating powered tools if they are showing any signs of potential heat illness.

| Heat Illness    | Signs & Symptoms   | First Aid   |
|-----------------|--|---|
| Heat Stroke     | <ul style="list-style-type: none"> <li>• Red, hot, and dry skin</li> <li>• Lack of sweating despite the heat</li> <li>• Behavioral changes such as confusion or disorientation</li> <li>• Signs of difficulty breathing, seizures, or unconsciousness</li> </ul> | <ul style="list-style-type: none"> <li>• Call 911 Immediately</li> <li>• Move person to cool place</li> <li>• Remove unnecessary clothing</li> <li>• Fan air while wetting skin with water</li> </ul>   |
| Heat Exhaustion | <ul style="list-style-type: none"> <li>• Cool moist skin, often with goosebumps</li> <li>• Heavy sweating</li> <li>• Faintness, Dizziness, or Nausea</li> <li>• Fatigue</li> </ul>   | <ul style="list-style-type: none"> <li>• Move person to cool place</li> <li>• Have person slowly drink or sip water</li> <li>• Call 911 if symptoms do not get much better within 15 minutes</li> </ul> |
| Heat Cramps     | <ul style="list-style-type: none"> <li>• Profuse sweating with involuntary muscle spasms</li> </ul>  | <ul style="list-style-type: none"> <li>• Move person to cool place</li> <li>• Have person slowly drink or sip water</li> <li>• Call 911 if symptoms do not get much better within 15 minutes</li> </ul> |
